

(Texas, USA) Stop the Execution of
Rodney Reed

Rodney Reed is a prisoner on death row in Texas. His execution is scheduled for March 5, 2015. The afro-american was sentenced for the brutal rape and murder of a white woman while a young man in 1996. However, many facts indicate that she was rather murdered by her then partner, a police officer at the time. This officer is currently serving another sentence for rape in an unrelated case until 2018.

Rodney Reed is one of more than 3000 prisoners on death row in the US, who never had a chance for a fair trial, because they had no means to access a qualified defence. Both, Texan and Federal courts have repeatedly denied Reed's requests for a forensic examination of the crime circumstances – they now intend to close his file forever, and torture him to death by lethal injection. Together with concerned people all over the world we can stop this. Join us and demand: Stop the execution of Rodney Reed!

Sunday, March 1, 2015

US Embassy - 3 pm
Pariser Platz / Brandenburg Gate - Berlin

US Embassy - 3 pm
Pariser Platz / Brandenburg Gate - Berlin

Since the events in Ferguson, the brave resistance shown by many against weekly racist, and sometimes deadly, police brutality has shone a light on the ways that people of colour are treated within US society. An alliance of cops (exempt from any fear of punishment) and a class-biased justice system ensure a constant stream of inmates for the production lines of the prison industry. Approximately 2,3 billion US citizens spend a huge part of their life working in forced labour – the overwhelming majority sentenced for minor offences. These prisoners create enormous profits for the very industries who, in turn, support the strongest "law and order" lobby organisations.

Every couple of weeks someone poor, and often a Person of Colour, is executed by the U.S state in order to establish fear and maintain authority amongst the excluded third of US society.

No government has the moral authority to murder people, not through the military, nor through the police or by the deathpenalty! Therefore, we say:

#dontshoot #wecantbreathe #nodeathpenalty!

Join us on Sunday, March 1, 2015 in front of the US Embassy at Pariser Platz/Brandenburg Gate in Berlin at 3 pm to protest against police brutality, any form of racism and the death penalty!

Safe the life and freedom of Rodney Reed! Abolish the Death penalty - everywhere!
